PET STYLIST

ACADEMY

SCHOOL HISTORY

The Pet Stylist Academy was established in 2010. Its founder, Emily Myatt, has over 15 years experience within the grooming industry. Emily is an International Certified Master Groomer, an Australian award winning pet stylist and a certified trainer and assessor. Emily is also the owner of more than 10 grooming salons across Australia.

THE TRAINING

The curriculum has been designed to ensure that the students perform in a skilful, responsible, and professional manner and that their scope of knowledge creates highly qualified professionals. Under the direction and instruction of seasoned professionals, students acquire the techniques and skills necessary for competence in the field of professional pet grooming and styling. Practical grooming applications and handling techniques are complemented by a structured self study program. These elements are the foundation of the course.

Fundamental to the method of instruction and content of the training is the student's capacity for growth. We realise that dog and cat grooming is an art that requires both talent and training.

Students are encouraged to bring both creativity and individual expression to the grooming table.

We believe that creativity, coupled with a love and respect for animals are the elements needed for a beneficial experience. The school recognises that there is more than one approach to pet grooming. However, Pet Stylist Academy students are taught to become competent in accordance with the standards set by international pet grooming associations.
