TRAINING THE TRAINERS

Dog Training Qualifications Australian Dog Trainers Academy - Vic

The Australian Dog Trainers' Academy was formed in 2003 to train you to become trainers of dogs as well as people.

The Australian Dog Trainers Academy, a dog trainer school, offers a variety of training to suit your needs, whether you aim to be a hobby trainer or a professional trainer. Our courses are in simple modules, fun and very hands-on, and give you the possibility to upgrade both your learning and experience over time.

We focus not only on teaching you how to train dogs, but also especially on how to get the best out of the people, and how to best train them (applying adult learning principles).

Our courses (including a nationally accredited course) are held in various formats, including weekends and at convenient locations.

You can study by Distance Learning, by Short Course for specific skills, or study the fully Accredited course. We offer one of very few courses in how to successfully operate Puppy Pre-Schools, and we also train assistance dogs to meet specific needs.

The Australian Dog Trainers Academy meets the ever-expanding demand for [professional dog trainers](#) and an urgent requirement for ongoing and better [canine training](#).

Handlers of dogs and the public at large demand better trained dogs; a trend underpinned by ever-increasing community awareness and legal/legislative standards.

Limited places are available and early bookings are advisable. Make that decision; don't delay, call today!
